Our Investment Solutions

Hedge Plus Capital provides a comprehensive suite of investment and trading tools designed for investors at every level of experience — from first-time retail participants to sophisticated institutional traders.

Portfolio Management

Effortlessly manage your entire portfolio with our intuitive platform — track all assets across markets in one unified, real-time view with advanced charting and analytics.

One-Click Copy Trading

Mirror the strategies of experienced, verified traders with a single click — ideal for new investors seeking proven expertise without active management.

Up to 100x Leverage

Maximize trading potential with up to 100x leverage on major crypto and forex pairs — with configurable risk controls and real-time margin monitoring.

Demo Accounts

Test and refine trading strategies risk-free with a fully-featured demo environment before committing real capital — identical to the live platform.

Real-Time Trading

Sub-millisecond order execution, tight spreads, and live market data streams ensure you never miss a market opportunity.

Crypto Staking

Earn passive daily rewards staking BTC (4.5% APY), ETH (5.8% APY), SOL (7.2% APY), and USDT (9.0% APY) — with flexible and fixed lock-in options.

Investment Plans

Hedge Plus Capital offers four structured investment plans designed to suit a range of capital levels and investment horizons. All plans are managed by our professional trading desk with full transparency and daily reporting.

Plan	Return	Duration	Minimum	Maximum
Basic Plan	5% daily	1 month	$3,000	$29,999
Standard Plan	3.5% daily	3 months	$30,000	—
Children Scholarships	4.5% weekly	6 months	$100,000	$350,000
Fixed Plan	12% monthly	9 months	$150,000	—

All plans are professionally managed with full transparency and daily reporting. Returns are subject to market conditions and plan terms.

Investment Plan Details

Each Hedge Plus Capital investment plan is purpose-built for a specific investor profile, capital range, and time horizon. Our professional trading desk actively manages all plan portfolios with full transparency and daily reporting across the lifecycle of each engagement.

1

Basic Plan — 5% Daily

Duration: 1 month | **Capital range:** $3,000–$29,999

Entry-level plan delivering 5% daily returns over one month. Ideal for investors testing the platform or seeking short-duration, high-frequency compounding with modest capital commitment.

2

Standard Plan — 3.5% Daily

Duration: 3 months | **Minimum:** $30,000

Mid-tier plan with 3.5% daily returns over three months. Designed for committed investors seeking consistent compounding growth over a medium-term horizon with capital exceeding $30,000.

3

Children Scholarships — 4.5% Weekly

Duration: 6 months | **Range:** $100,000–$350,000

A purpose-built education savings vehicle offering 4.5% weekly returns over six months. Structured to grow capital dedicated to long-term educational funding goals with a defined maximum exposure.

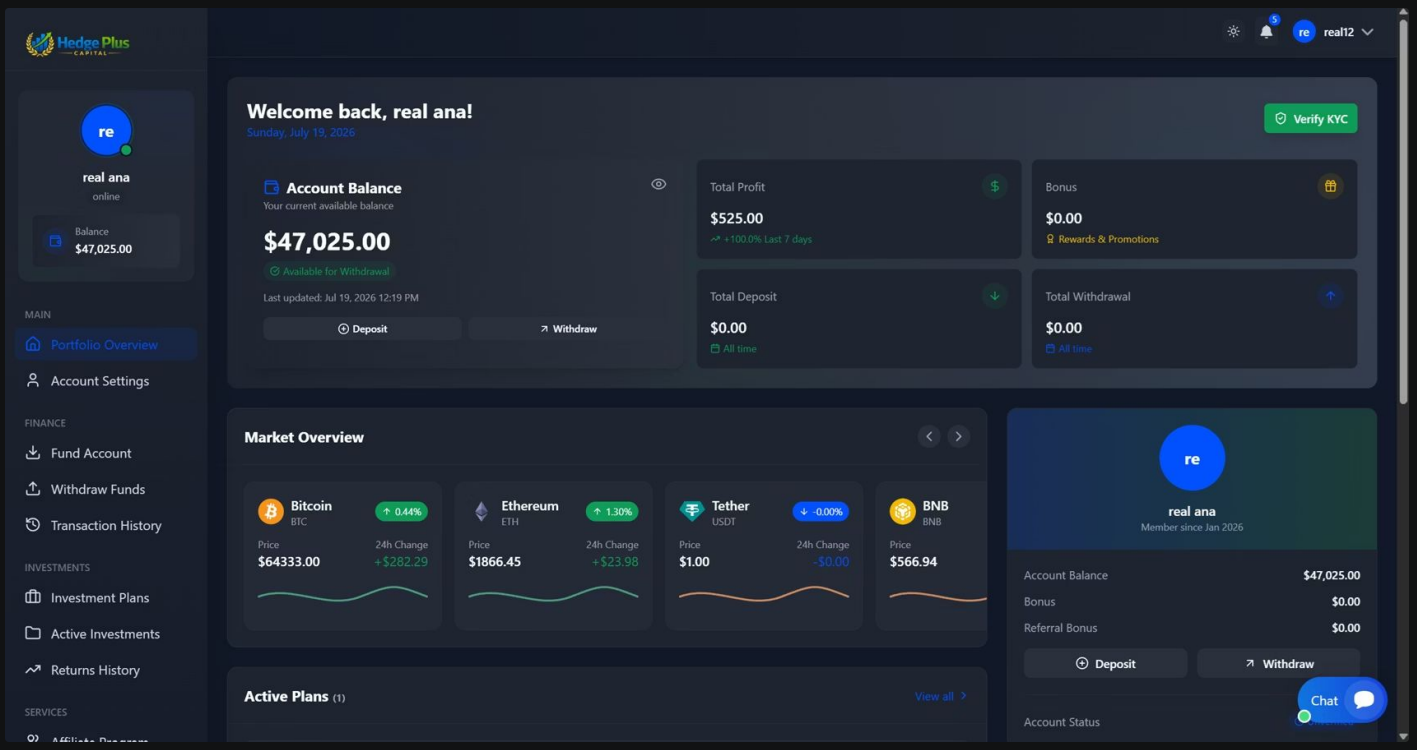

4

Fixed Plan — 12% Monthly

Duration: 9 months | **Minimum:** $150,000

Premium long-term plan delivering 12% monthly returns over nine months. Reserved for high-net-worth investors committing $150,000 or more seeking sustained, high-yield portfolio growth.

Live Trading Dashboard

The Hedge Plus Capital dashboard provides a single-pane command centre for every aspect of your investment and trading activity — from real-time portfolio monitoring to fund management and KYC compliance.

Portfolio & Account Overview

Unified Portfolio View

Account balance, total profit, bonus, total deposit, and full withdrawal history visible at a glance in one consolidated interface.

Active Plans Tracker

Monitor all running investment plans, expected returns, and maturity dates in real time with automated progress indicators.

Member Profile

Personalised dashboard displaying account balance, referral bonus earned, and member-since date for full account transparency.

Markets, Compliance & Funds

Market Overview Panel

Live prices for Bitcoin, Ethereum, Tether, BNB, and all major assets with 24-hour change indicators and volume data.

KYC Verification

Streamlined identity verification process ensuring regulatory compliance and full account security — completed directly within the dashboard.

Deposit & Withdrawal

One-click fund management with support for all major payment methods including crypto transfers, bank wire, and card payments.

Platform Features

Hedge Plus Capital's technology stack is engineered for performance, accessibility, and reliability — delivering professional-grade tools to every investor regardless of experience level or device.

Sub-Millisecond Execution

Orders filled at market speed with minimal slippage — critical for high-frequency and leveraged trading strategies.

Multi-Device Access

Full platform functionality on desktop, mobile (iOS & Android), and tablet — trade from anywhere, anytime.

Advanced Charting Tools

Professional-grade candlestick charts, technical indicators, trend lines, and support/resistance overlays.

Copy Trading Marketplace

Browse verified signal providers by win rate, profit share, total trades, and minimum startup capital.

Staking Dashboard

Manage staking positions, track APY earnings, and adjust lock-in periods from a single unified interface.

24/7 Live-Chat Support

World-class support team available around the clock — email responses within 2 hours on business days.

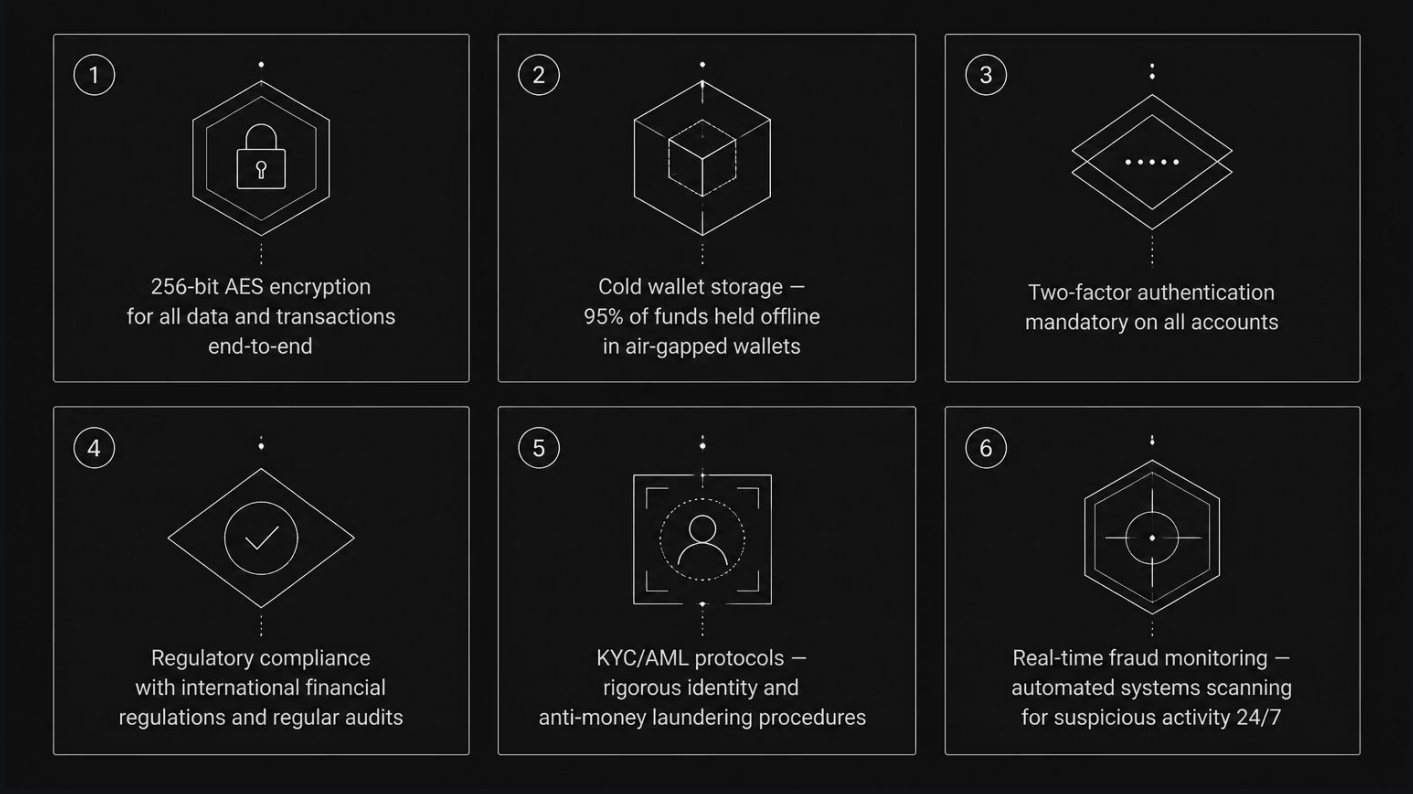

Referral Programme

Earn referral bonuses by inviting new traders — tracked transparently in your personalised dashboard.

Bank-Grade Security

Protecting client capital and data is the foundational priority of Hedge Plus Capital's infrastructure. Every layer of the platform is engineered with institutional-grade security protocols, regulatory oversight, and automated monitoring systems.

256-bit AES Encryption

Military-grade end-to-end encryption on all data and transactions — identical to the standard used by global financial institutions.

Regulatory Compliance

Fully licensed and compliant with international financial regulations — subject to regular independent audits across all operating regions.

Cold Wallet Storage

95% of user funds held offline in air-gapped cold wallets, completely isolated from any internet-connected network.

KYC / AML Protocols

Rigorous Know Your Customer and Anti-Money Laundering procedures protect the integrity of the platform and all users.

Two-Factor Authentication

Mandatory 2FA on all accounts adds an additional layer of identity verification at every login and withdrawal event.

Real-Time Fraud Monitoring

Automated systems continuously scan for suspicious activity and flag anomalies before they can impact user accounts.

Why Choose Hedge Plus Capital

In a crowded landscape of trading platforms and investment vehicles, Hedge Plus Capital stands apart through its combination of breadth, performance, transparency, and trust — built over six years of regulated operation serving 150,000+ active clients globally.

Everything in One Place

Manage assets, place trades, track progress, and move funds seamlessly across markets, accounts, and devices — no need for multiple platforms or fragmented tools.

Global Market Access

Trade crypto, stocks, forex, and commodities in one unified view — 50+ markets accessible across 180+ countries with localised support and compliance.

Fast Deposits & Withdrawals

Move funds in and out quickly with all major payment methods supported — crypto transfers, bank wire, and card — with minimal processing delays.

Proven Track Record

Founded 2018 — 6+ years of regulated operation, 150,000+ active traders, and $2.8B+ in volume traded. Award-winning execution and customer satisfaction, multiple years running.
